

JIM YAREMKO

PANELIST

Director, Safety & Engineering
Canadian Energy Pipeline Association

Jim Yaremko is the Director, Safety & Engineering at the Canadian Energy Pipeline Association (CEPA). He works with industry member partners, regulators and other stakeholders to advance a Safe, Socially and Environmentally Sustainable Pipeline Industry.

Prior to joining CEPA in April 2017, Jim worked for over thirteen years at ATCO Pipelines where he was responsible for Field Operations and Maintenance as well as System Planning, Control Room Operations, Customer Support and Gas Measurement. Prior to joining ATCO, Jim spent over 20 years in Alberta's Energy industry in roles covering Production Engineering, Project Evaluation and the Marketing of Produced Petroleum Products.

Jim is a Professional Engineer with a Bachelor of Civil Engineering and a Master's degree in Business Administration from the University of Alberta.
