

TODD BELOT

OPENING & CLOSING REMARKS

President, CFAR Society
Sr. Advisor, Aboriginal & Community
Relations, Husky Energy

Todd's passion is the relationships he has the privilege of maintaining as he has spent his entire career in customer and stakeholder relations to add to his extensive background in team sports. Todd currently is employed for a major Canadian energy producer which he is proud to serve with their Indigenous and community relations team. Born and raised in Alberta he remains active in athletics, having recently competed in Auckland, New Zealand at the "World Masters Games" in basketball. Todd's most important role is that of a proud husband and father of two young ladies.

Todd is particularly thankful of the time served on the CFAR Board of Directors. "I've had the opportunity to work with many uniquely talented people in my years with CFAR. I am particularly proud of the team we currently have in place. We have a very accomplished and eclectic Board of Directors serving with the best Executive Director and Events Coordinator team around. We're also blessed to have an expanding team of gifted and energetic volunteers. This just blows me away when they're there to eagerly and unselfishly help our organization."
